Subject: Interim Production PEER v. EPA (Superfund Task Force FOIA) -
Importance: High

Hey y'all – we have a production due next week for the PEER v. EPA lawsuit(Superfund Task Force FOIA). The first attachment is the request and the second attachment is the draft production and it is 246 pages. Note -a good portion of the email traffic is redacted. There are

27 records that are release in full because they are communications from outside entities requesting meetings or emailing with people from AO. The release in part records contains back and forth on the development of the delegation and issues related to reforming the Superfund Program and are heavily redacted.

- **Scope of the Request:** The produced documents should be responsive to #5 of the attached FOIA request ("Any communications to or from the Office of the Administrator during Mr. Pruitt's tenure concerning the need or basis for changing administration of Superfund;")

Please try and let me know by MONDAY, MARCH 26, 2018 if you have any questions or concerns.

Thanks,

Beth
